FROM : DIAAP-9

SUBJECT: Receipt of Equipment

1. This is to acknowledge receipt of items 2-7 and 9 on NPIC contract
25X1 [redacted] Installation was completed on 4 Feb 1969.

2. Contract item 8, an air supply, was furnished for only one of the two air puck systems. The new air puck system on the mdl 621 comparator is not workable without an air supply. This office was under the impression that the necessary air supply would be provided for both air puck systems. Request action be taken to obtain an adequate air supply system to allow for simultaneous operation of both air pucks.

3. Operational checkout by AP-9 mensuration personnel indicate the equipment delivered is performing in an acceptable manner.
